Andrew J. Doyle is a registered patent attorney in Reinhart's Intellectual Property Practice with a practice focusing primarily on patent prosecution including procuring and protecting intellectual property rights for the firm's clients. Andrew serves clients ranging from individual inventors to multinational corporations in the aerospace and aviation industry, the high tech and medical device fields, the filtration industry, and the electromechanical and electronic arts.

Andrew has a background in the electromechanical and mechanical arts, which allows him to advise his clients on securing and defending intellectual property rights in a wide variety of high technology industries. He is dedicated to helping his clients navigate the process of securing and protecting their intellectual property rights from the United State Patent & Trademark Office and The United States Copyright Office as well as from International Patent Offices ranging from the European Patent Office to the State Intellectual Property Office in the People's Republic of China.

Andrew primarily serves the following industries:

- Intellectual Property
- Copyrights
- Trademarks
- Vessel Hull Registration

Patent Prosecution for:
